InfoValue provides IP-based Interactive Patient Education Video Solution at St. Mary's Medical Center

ELMSFORD, N.Y. – June 5, 2013 – InfoValue Computing, Inc. (InfoValue), IPTV experts, announced its installation at St. Mary's Medical Center in Evansville, Indiana. St. Mary's Medical Center is one of the largest faith-based health ministries in the area. This state-of-the-art facility now features InfoValue's HealthcareTV Solution which offers patients an IP-based HD TV experience that includes HD Educational Video-On-Demand content, and a comprehensive patient information compendium.

InfoValue collaborated with long-time Partner and Reseller, Advanced Media Technologies (AMT), for the installation at St. Mary's Medical Center.

"We are very excited to have been selected by St. Mary's Medical Center," said Richard Chen, Senior Sales Executive at InfoValue. "Our HealthcareTV solution fills a void in the market; a high-quality, cost effective patient education, and entertainment portal. We firmly believe that St. Mary's Medical Center will benefit greatly from the multitude of features and capabilities that HealthcareTV provides."

"InfoValue's Technical Staff has been extremely easy to work with during the design and installation of our system. The staff and patients alike are extremely happy with the simple operation and such a professional looking product." said Bill Shewmaker, Media Specialist at St. Mary's Medical Center.

InfoValue HealthcareTV™ is a leading edge IPTV solution tailored specifically for the healthcare industry. InfoValue HealthcareTV™ offers personalized patient services and educational content. The HealthcareTV platform also has the ability to provide network-based personal video recording (nPVR) as well as time-shifted television (TSTV). By leveraging the award winning InfoValue QuickVideo™ platform, InfoValue HealthcareTV™ is uniquely positioned to support hospitals and medical centers in incorporating "quadruple play" services – delivery of TV, video, voice, and data – into their own service and information portal over the converged IP network infrastructure to simultaneously generate new revenues, increase occupancy rates, and reduce operational expenses.

About InfoValue
